

VEHICLE CHARGERS

STANDALONE PEDESTAL OPTIONS

Create a great looking and safe charging station with our pedestal solutions. The breezEV charger pedestals can be installed everywhere, including parking garages, parking lots, along curbside parking, and more. Compatible with breezEV Level 2 chargers as well as other manufactures Level 2 chargers (breezEV is not responsible for fitment of other manufacturers chargers, please ensure that mounting and wiring will be compatible). Options with or without cable management.

SEE PAGE 2 FOR OTHER MOUNTING OPTIONS

- > Flexible design allows for mounting either a single charger, dual back-to-back chargers or dual side-by-side chargers (requires optional side-by-side bracket).
- > Designed to allow for cable management mounting (optional).
- > Powder coated steel and stainless steel base mounting plate won't rust and will handle extreme weather.
- > Small footprint saves space and keeps walkways clear.
- > Wiring is safely enclosed within the pedestal inside UL Listed junction box and terminal block.
- > Large rear access panel makes wiring a breeze!
- > Ground-mounted installation with four anchor bolts into concrete.
- > ADA compliant.
- > Elegant black color looks sleek and looks great in any landscape.
- > Large flat faces allow for custom branding and advertising with vinyl decals (contact us for details).
