

# TRULUX SUBMERSIBLE - 24V

## Trulux Submersible Tape Light & Accessories

Submersible Trulux is available in 3000K, 4000K and RGB (3-in-1) varieties. To keep the IP68 protection, this version is not cuttable and should be used as a whole 16.4 piece. Use long jumper extensions to reach a safe location for the receiver(s) and power supply.

### Features

- Sealed IP68 power input can be used with 10ft and 20ft jumpers for wet and submerged tape locations
- High output White with 94+ CRI offers up to 240 lumens per foot using only 4.4 watts/foot; Warm White yields 220 lumens per foot
- White Trulux is dimmable with Trulux controllers and most electronic low voltage dimmers (use ELV drivers for other brands of dimmers)
- Use RGB version (also only 4.4W/ft) with Trulux controllers or the Trulux App for entertaining dynamic water effects
- Run length is 16.4 feet only (**Do not cut IP68 reel**)
- 2835 LEDs last up to 50,000 hours rated life

### Applications

- Outdoor living areas
- Architectural accent
- Landscaping
- Direct sunlight exposed
- Pool / water features
- Saltwater-marine
- Coastal environments
- Patios / lounges
